

# Newsletter March 2018

## **Meeting & Test Malossi**

After the winter test in Spain, it has been quiet for a while. The team worked towards the " Meeting & Test " of Malossi, the scooter is equipped with new plastic and everything is sprayed neatly in the colors. Unfortunately this week came the bad news that due to the weather conditions in Italy the event was canceled.

At the beginning of the week there was still a nice layer of snow and ice on the track as the picture shows. Where the temperatures in the course of the week or what would go high, the organization thought it would be wiser to cancel the event.

## **Race 1 Malossi cup Varano**

Jeroen also had to make the choice to miss the first race of the Malossi cup in April. This because he has a new job from 12 March.

He will continue to work at Agrimarket supermarkets but in a slightly different function and he will change branch.

A new branch will be opened in Terneuzen and the opening will be the same as the first race of the season. It was a difficult choice but for the work-related future of Jeroen it is important that he is present at the opening.

## Scooter racing in the Netherlands

After the previous report of the organization Stichting Organisatie Brommer en Wegrace (SOBW) to stop organizing the races after the 2017 season, a number of riders have taken the initiative to continue the class. This will start from season 2018 in collaboration with the organization RAP-Holland. This is of course great news for the future of scooter racing in the Netherlands. By missing the first match of the Malossi cup, we will look to join a race at the RAP to get racing rhythm again.

### Sticker on the car

Last week the bus with which we go to all races also has a nice sticker set to be even more visible on the road. The back has a large action photo and the website is shown on the front.

All this has been done by our loyal sponsor Van Kruiningen Reklame in Yerseke. For many years they have provided the scooterer with the stickers with sponsors and numbers.

They also take care of our team clothing for many years.

In April there will probably not be a newsletter, but if there are news we will of course keep you informed!
